UI & Styling	Tailwind CSS, Bootstrap, Styled-Components, Responsive Design, Mobile-First Development, Cross-Browser Compatibility, Figma-to-Code
Integration	REST APIs, Supabase, Authentication & Authorization, QR Code Integration
Tools & Methods	Git, GitHub, Postman, Figma, Jira, Agile/Scrum

PROFESSIONAL EXPERIENCE

Lead Front-End Developer / Technical Account Manager (Freelance)

Cairo, Egypt | 2023 - Present

- Delivered 83+ client projects, translating product requirements and Figma designs into responsive, production-ready web interfaces.
- Developed scalable and reusable frontend components using React.js, JavaScript, TypeScript, Redux Toolkit, and React Query.
- Built mobile-first layouts with Tailwind CSS, Bootstrap, and Styled-Components, supporting desktop, tablet, and mobile experiences.
- Integrated frontend applications with REST APIs, Supabase, authentication services, and third-party tools.
- Collaborated with UI/UX designers, backend developers, and stakeholders to refine user journeys and deliver maintainable solutions.
- Used Git/GitHub workflows and maintained clean, structured, and documented code across multiple projects.

Selected Front-End Projects

- **Sysmex Egypt - Medical Lab Maintenance Platform:** Built responsive role-based interfaces for field engineers, clients, and supervisors, including service requests, ticket workflows, SLA monitoring, and executive dashboards.
- **Snaa - Professional Advisory & EdTech Platform:** Developed user interfaces for course publishing, consultations, advisory-session scheduling, and multi-role marketplace journeys.
- **BlyncPay - Smart Parking Management System:** Created responsive parking dashboards with QR-enabled check-in flows, real-time occupancy tracking, and navigation to available parking spaces.
- **Hi Tech Labs Manager - Dental Lab & Clinic Platform:** Developed interfaces for patient-linked orders, configurable dental specifications, production workflows, and last-mile delivery tracking.
- **Luster - Distribution, Commerce & QR Traceability:** Built distributor hierarchy, country-specific product, payment, and shipping interfaces, plus QR-based product lifecycle tracking from manufacturing to delivery.
- **Irtkaz - Real Estate Sales & Inventory System:** Created responsive sales and inventory dashboards for property tracking, sales management, filtering, and administrative control.

Branch Manager

Route Academy | Cairo, Egypt | 2021 - 2023

- Led branch operations, coordinated teams, and maintained service quality across technical education programs.
- Introduced structured communication and process improvements to strengthen client retention and operational efficiency.
- Coordinated cross-functional teams to resolve inquiries and support successful program delivery.

EDUCATION & FRONT-END TRAINING
